The Government had granted a tax incentive for investments made by an investor in an approved Bionexus Status Company (BSC) at the initiation of commercialization stage. Both the investor and the BSC would have to comply with the relevant rules relating to the tax incentive. In order to qualify for the tax incentive, all prospective investors are required to submit an application to the Malaysian Bioeconomy Development Corporation Sdn Bhd (Bioeconomy Corporation), which was formerly known as Malaysian Biotechnology Corporation Sdn Bhd, to ensure that the eligibility criteria are met and to accredit them as approved investors. For more information, please refer to Malaysian Bioeconomy Development Corporation Sdn Bhd's website at www.bioeconomycorporation.my.

Example 3

CTC Lipido Sdn Bhd (CTCL) is a wholly-owned subsidiary of CTC Corporation Bhd (CTC) and conducts commercial production activities for structured lipids involving enzymes and purification technologies. The company's financial year ends on 31 December annually. CTCL has been awarded the status as a BSC on 27.3.2015. CTCL will set up a sophisticated enzymatic plant supported by research and development (R & D) facilities in Malaysia for large-scale commercial production of enzymatic structured lipids. The commencement date for CTCL to carry out the qualifying business activities was set out on 18.8.2016. CTCL has issued its first sales invoice on 2.1.2018.

CTC was granted an approval from the Minister of Finance to invest RM200 million in CTCL under this incentive. The period allowed to make this investment is for 2016 and 2017.

CTC has invested 46 million shares @ RM1 per share to CTCL as an initial investment to finance CTCL's qualified activities in the year 2016 and additional shares of 154 million shares @ RM1 per share in the year 2017.

CTCL used the paid-up share capital earned for:

- (i) research, development, assessment and development of enzyme products using enzyme modification and purification technology; and
- (ii) capital expenditure and working capital to commence commercialization of such output.

CTC has the following sources of income for each year ending 31st December:

Since CTCL has issued its first sales invoice on 2.1.2018, the deduction claim by CTC ceased on that date.

- 6.4 Investments in the form of holding of paid-up capital should not be disposed of within 5 years from the date of the last investment. If there is any disposal within the 5 year period, the consideration for the disposal of such shares has to be added in ascertaining the adjusted business income of the investor for the YA in the basis period the consideration is received. The amount added back shall not exceed the total deduction allowed in relation to the investment in the form of holding of paid-up capital.
